CLASS AUDITING

If a student arrives for school too far into a semester to be able to catch up on missed work, we cannot offer school credit for the remainder of that semester. But, many students choose to come early anyway and attend without credit (or AUDIT) in order to have time to adjust and learn English better before enrolling in full time school. If this is the case, or in the case of a student who wishes to come and attend for only a couple of months before returning home, we simply divide the tuition by 10 months(\$2,215.80) and multiply that by the number of months they would be here outside of a normal full semester. *(For example, a student who arrives for the last three months of the fall semester would owe \$6,647.40. The application and registration fee would remain the same please let us know if you are interested in class auditing.)*
